

Cookies and Privacy Policy

We take privacy very seriously and do not currently collect any data except for allowing Google Analytics to run.

A **cookie** is a small piece of data sent from a website and stored in the user's web browser while the user is browsing. Every time the user loads a website page, the browser may send the cookie back to the server to notify the website of user's activity. This enables the website to identify and track the user.

We may use both "session" cookies and "persistent" cookies on the website.

We will use the session cookies to keep track of you whilst you navigate the website;

We will use the persistent cookies to: enable our website to recognise you when you visit.

Session cookies will be deleted from your computer when you close your browser.

Persistent cookies will remain stored on your computer until deleted, or until they reach a specified expiry date.

Our advertisers/payment services providers and Google may also send you cookies.

Most browsers allow you to refuse to accept cookies. (For example, in Internet Explorer you can refuse all cookies by clicking "Tools", "Internet Options", "Privacy", and selecting "Block all cookies" using the sliding selector.)

This will, however, have a negative impact upon the usability of many websites, including this one.
